

INSECT STINGS

AR5420.1

The following procedures shall be followed when children suffer insect stings:

1. The child should be brought to the nurse immediately.
2. Where children are known to be allergic to insect bites, the written instruction of the private physician should be followed.
3. When no prior knowledge of allergy is available, and a child is reacting adversely to an insect bite, the nurse should follow the directions of the school physician's standing order.

Revised & Changed from P5413 to AR5410.2
Renumbered from AR5410.2 – December 2015
Renumbered from AR5420.2 – August 2017
