

## **ANNUAL PUBLIC REPORTING**

**P4001**

The Superintendent of Schools will be responsible for the presentation annually of student performance data for the preceding school year. Building principals, district department heads, and school building councils will provide information to the Superintendent of Schools about student performance in relation to each building's education plan. Student performance data will be disaggregated in compliance with State Education Department requirements and local building needs.

Revised February 2000

Renumbered from P0410 – May 2015
