SUBJECT: 2017-18 HEALTH & DENTAL INSURANCE DEDUCTIONS
DATE: July 1, 2017

The current rates for all Medical Plans and the Dental Plan are listed below and will begin with the 9/15/17 paycheck. (These deductions are calculated by taking the monthly premium and multiplying it by 12 months, and then dividing it by 20 paychecks).

Monthly rates for all plans will continue to be on a July 1 to June 30 schedule and will not change until July 1, 2018. Please compare these rates to your insurance deductions in your first full paycheck beginning in September 2017. If you join a health or dental plan after September of any school year, your paycheck rate will be recalculated and will not be the same paycheck rate reflected on this sheet.
