

LIBRARY MATERIALS

P4513

The Board of Education has the responsibility and the authority to approve the library materials of the district libraries and to maintain an up-to-date collection. The Board delegates its authority to acquire library materials to the school district librarians. Materials for the libraries will be recommended for purchase by the faculty, librarians, administration, students, and parents.

Books and other materials offered as gifts to the library will be subject to the same selection criteria as materials purchased by the library. It will be the responsibility of the professional librarians to determine if these gifts meet the selection criteria. Materials purchased with gift funds will be determined by the same process as that used to decide on budget-funded purchases.

Criticisms of library materials that are in the library should be submitted in writing to the Superintendent on a form supplied by the district.
