

HOMEWORK

P4730

Since the academic program is a demanding one, and both the New York State Board of Regents and the local Board of Education have high expectations for student achievement, homework will be a necessary adjunct to most classroom instruction. The appropriate time to be spent on homework will vary by grade level and courses and by individual students within the various grades. Homework will be directly related to class work and be pedagogically sound. Homework guidelines will be developed by building planning councils and reviewed by councils annually.
