

An advisory council to the principal, composed of a specified number of students appointed through the student government organization or by teacher recommendation will be formed in each secondary school. The advisory council will meet regularly to consider matters of general concern and to make recommendations to the principal for procedural or policy changes.

The council has an advisory role only, and the building principal is not bound to accept the council recommendations. The council should serve as a communications link that will keep the principals apprised of student views and concerns.

Revised June 2004

Renumbered from P5370 – September 2015
