

ENERGY MANAGEMENT

P8800

The Board of Education will direct the Superintendent of Schools to develop and implement both immediate and long-range plans designed to conserve district energy resources.

The Assistant Superintendent for Support Services will make recommendations for operations and maintenance procedures, as well as any capital expenditures necessary to achieve maximum cost-efficiency of all district energy use. He/She will work with the Superintendent to develop contingency plans in the event of an energy shortage.

The Board will apply for any applicable grants to initiate and/or sustain its energy conservation program.
