

December 11, 2017

Dear Parents & Guardians,

We have embarked on a district-wide project to gather information to learn more about our students' school and home technology use for learning. As a district we will use this information to help guide our own use of instructional technology in the classroom, as well as for professional development opportunities for our faculty and staff.

Students in grades 3-12 will be asked to provide input via a *Technology & Learning Questionnaire* beginning December 18. This will take approximately 10 to 15 minutes. The information will help us form a more complete picture of how to use technology to assist your child's learning. Please know that all responses will remain anonymous and there is no personal identifying information gathered through this questionnaire.

If you have any questions regarding this questionnaire please call me.

If you **choose NOT** to have your child participate in the project, please detach and return the slip below to your child's homeroom teacher by **Friday, December 15** so that we can plan accordingly.

Thank you for your cooperation.

Name
Principal

I **do not** wish to have my child participate in the district's *Technology and Learning Questionnaire*.

Child's Name & Grade
